Sunday, 03 January 2010

The NSW Formula Ford Championship has established its own Youtube Channel to be able to show to a worldwide internet audience, video footage from various races of the NSW Formula Ford Championship.

The decision to establish the site evolved from the video coverage of the last ever round of the NSW Championship at Sydney's Iconic Oran Park Raceway in November 2009, by Video Production house Toungtwister Video.

With the increased use of on-board cameras by drivers, the organisers of the NSW Formula Ford Championship felt it an appropriate tool to add to its promotions arsenal.

The site will be able to display various footage of races of the NSW Formula Ford Championship that is provided by the various drivers and teams contesting the Championship, as well as footage specifically commissioned by the organisers.

You can visit the Championship's Youtube channel on <http://www.youtube.com/profile?user=NSWformulaford>.
